BOARD CERTIFIED ORTHODONTISTS

COVID-19 (Coronavirus) POLICY UPDATE as of April 2, 2020:

Dear Patients and Families,

Despite our initial notice that we would be returning to work on a semi-normal level next week, we received the new notice late yesterday. As such, our office we will remain closed for non-essential care until the end of April.

For those of you with appointments in April, you will be rescheduled in the following way. Your appointment will be moved exactly 4 weeks back. So if you had an appointment on Tuesday, April 7th at 10:30am, then your new appointment will be Tuesday, May 5th at 10:30am. You should get a notification via email or text to confirm this new appointment. If you had an appointment during the last half of March and did not get rescheduled in April, then you are on our list of patients that will be called and rescheduled into May at the earliest possible time.

If you have an emergency or are in pain, please contact us immediately so we can get you comfortable. If you need elastics, wax, additional aligners or other orthodontic related items... please contact us and we will mail them to you or coordinate a time to pick them up. Be safe. We love and appreciate you all.

God bless,

Dr. Housley and Dr. Dobson
